

MacroPak™

An all-purpose macronutrient blend.

This product is intended for use based on manufacturer's recommendations only.

2-2-2

Guaranteed Analysis:

Nitrogen (N)	2%
Available Phosphate (P ₂ O ₅)	2%
Soluble Potash (K ₂ O)	2%
Calcium (Ca)	1.5%
Magnesium (Mg)	0.5%
Sulfur (S)	1%

Derived from: corn steep powder, calcium silicate, magnesium sulfate, kelp meal

Net Contents:

- 1 gallon (3.78L)
9.9 lbs (4.49 kg)
- 55 gallon (208.2L)
544.5 lbs (246.9 kg)
- 5 gallon (18.92L)
49.5lbs (22.4 kg)
- 275 gallon (1041L)
2722.5 lbs (1234.9 kg)
- 30 gallon (113.56L)
297 lbs (134.7 kg)

Density: 9.9 lbs. per gallon at 68°F

Information regarding the contents and levels of metals in this product is available by calling 800-495-6603

Directions for use:

- Foliar: Apply up to 2 quarts per acre every 7 to 10 days
- Fertigation: Apply up to 3 gallons per acre every 7 to 10 days
- Sidedress: Apply up to 2 gallons per acre

Check with your crop consultant for specific application rates and other uses.

Handling: Store in a cool dry area out of direct sunlight. This product has been tested to store safely down to 35°F. Crystallization or sedimentation may occur below 35°F or above 95°F. Shake or stir before use, especially when near empty to dissolve the residue on the bottom of the container. Do not pre-mix or store in diluted form. Apply product within 8 hours of diluting. All foliar sprays perform best when applied early morning or late afternoon.

When tank mixing: A jar test is recommended: Prepare a small amount of the proposed mix and allow it to stand in a glass jar overnight observing for signs of incompatibility. Ideally, a sample of the test mix should then be sprayed on a small area of the target crop and observed for 3 to 4 days for any phytotoxic effects. Agitation is the key to usability of this product. AEA products involve tiny particles which are far too small to clog filters; however, if they are inadequately diluted or agitated before and during application, there is a possibility of problems with spray equipment. Consider using an eductor nozzle to agitate prior to use. Compatibility and/or performance cannot be guaranteed when combined with other products.

Disclaimer: AEA products are sold "as is" and all warranties, expressed or implied, are disclaimed. In no event shall AEA or its affiliates be liable for any damages of any kind for the storage or use of this product. The buyer assumes all responsibility for the use of any AEA products.
